

GUMKYUNG VANS CT-811

Micro - Soluble cutting oil

Attribute

VANS CT-811 is a low mineral content of the semi-synthetic water-soluble cutting oil, lubricant was added carefully selected additives . The high-tech products.

VANS CT-811 is a Bio-stable type phenol, not containing nitrite to form a carcinogen
The microbial inhibition is an excellent product.

A solution of **VANS CT-811** product is very easy workability as Micro-emulsion, the emulsion stability
The product can be excellent long-term using.

Pax

Properties	VANS CT - 811	Remark
Dilution appearance	Milky microemulsion	
Proportion (15/4 C)	0.92	
PH (5% solution)	9.8	

Application

VANS CT-811 is suitable for machining of soft material operations and machining centers that require high meteors and vesicular . And CNC, M / C, and most common, such as milling, turning, boring, cold sawing, mild drilling . A generic emulsion which can be used in the operation.

VANS CT-811 suitable for general steel and alloy steel, carbon steel and extending the quality (aluminum) and ferrous metals, non-ferrous metal can be apply.

We are recommend the dution (**water / coolant**) - (**20:1~10:1**) depend on water conditions and the difficulty of machining consumers.

Performance Features and benefits:

- The excellent tool lubrication and corrosion resistance.
- The excellent emulsion stability , excellent microbial inhibition significantly reduces the cost of fungicides.
- The liquid crystal-clear and smells less , harmless to the skin.
- Not containing harmful components such as heavy metals, not cause the various problems such as dermatitis.
- Excellent detergency and removal of the processing chip or anything else to keep clean and easy for the equipment.
- Excellent oxidation stability and thermal stability to maintain constant workability even during prolonged use.

Packaging

VANS CT-811 is available in 20Litre in pail and 200Litre in drum.

Warranty

This information given here is considered to be correct and is offered for your consideration investigation and verification. No warranties are expressed or implied, since the use of our products is beyond our control. Statements concerning the use Gumkyung products are not to be construed as recommending the infringement of any patent.

VANS CT-811 is made in Korea
